O'REILLYGMT

O'ReillyGMT is a new blog from O'Reilly. We plan to bring you the low-down on tech culture from Iceland, Russia, South Africa and every place in between, from grass roots coding in solitary rooms, through the hopes and dreams of start-ups, via the pioneering work done by governments, charities and direct action groups, to the sizeable contributions of the major corporations that grace this territory.

Our main line of reportage will be technology, but we're keen to dive into ecology, business, media, the arts, academia whenever we learn something we'd like to pass on.

But we want this to be a two-way conversation. Please let us know what you're working on, comment on the stuff we write about, tell us what we're doing right and what we're doing wrong. We built this site to reflect what's going on: you know better than us, so please, join us!

Contact us – oreillygmt@oreilly.co.uk

New Releases--Books, Short Cuts, and Rough Cuts

Get 35% off from O'Reilly, Pragmatic Bookshelf, Rocky Nook or YoungJin books you purchase directly from O'Reilly. Just use your user group promo code when ordering online <http://www.oreilly.com/store/> using the UK shopping cart. Forgot your code, ask your leader.

Did you know you can request a free book or PDF to review for your group? Ask your group leader for more information.

***2008 MySQL Conference & Expo Registration is Open, Santa Clara, CA--April 14-17

The largest gathering of MySQL developers, users, and DBAs worldwide, the event reflects MySQL's wide-ranging appeal and capabilities. The open atmosphere of the MySQL Conference & Expo helps IT professionals and community members to create the best database applications, tools, and software through expert instruction, hands-on tutorials, readily available MySQL developers, and guru business advice.

Use code "mys08usrg" when you register, and receive 15% off the registration price. Early registration discount deadline ends February 26.

To register for the conference, go to:

<<https://en.oreilly.com/mysql2008/public/register>>

****Web Expo SF Registration is Open, San Francisco, CA--Apr 22-25

A companion event to the Web 2.0 Summit, Web 2.0 Expo is an expanded, inclusive gathering for the technology and business communities through a combined conference and tradeshow.

Use code "websf08ug" when you register and receive \$100 off any conference package or a free expo hall pass. Early registration discount deadline ends March 20.

To register for the conference, go to:

<<https://en.oreilly.com/webexsf2008/public/register>>

***Where 2.0 2008 is Open, Burlingame, CA--May 12-14, 2008

At the O'Reilly Where 2.0 Conference, we expose the tools pushing the boundaries of the location frontier, track the emergence of new business models and services, and spend time examining new sources of data and the platforms for collecting them.

Use code "whr08usrg" when you register, and receive 15% off the registration price. Early registration discount deadline ends March 23.

To register for the conference, go to:

<<https://en.oreilly.com/where2008/public/register>>

****Registration for RailsConf 2008 is Open, Portland, OR--

May 29-June 1, 2008

Co-produced by Ruby Central and O'Reilly Media, RailsConf is "the" event for the growing Rails Community--the largest official gathering dedicated to everything Rails. If you're passionate about Rails and what it helps you achieve--or if you're curious about how Rails can help you create web applications better and faster--this conference is the place to be.

Use code "rc08usrg" when you register, and receive 15% off the registration price.

To register for the conference, go to:

<<https://en.oreilly.com/rails2008/public/register>>

News From O'Reilly & Beyond
=====

***A Look Back at 10 Years of OSI

It's been 10 years since the Open Source Initiative was launched, and what a 10 years it has been. Open Source has gone from an obscure and radical concept to a vibrant sector of the software landscape. For the 10th Anniversary, our faithful newshound Federico Biancuzzi talked to some of the early pioneers of the OSI (such as Bruce Perens and Eric Raymond) about where it came from and how it is relevant today.

<<http://www.oreillynet.com/pub/a/onlamp/2008/02/12/a-look-back-at-10-years-of-osi.html>>

***Aperture 2.0 with Joe Schorr

Aperture 2.0 is faster, easier to use, and produces better images, says Joe Schorr, Apple Senior Product Manager. In this interview with Derrick Story, Joe explains how Aperture 2.0 meets those lofty claims. This chat covers a lot of new ground.

<<http://www.oreillynet.com/pub/a/oreilly/digitalmedia/2008/02/12/aperture-2-with-joe-schorr.html>>

***Using Xen for High Availability Clusters

Virtualization is one approach that you can take to implementing clusters. But you still have to arrange to handle failures in a high-availability environment. Here's one solution, using Xen.

<<http://www.oreillynet.com/pub/a/onlamp/2008/02/05/using-xen-for-high-availabilty-clusters.html>>

***Developing RESTful Web Services in Perl

REST has become a widely used alternative to protocols such as SOAP, providing a simpler way to tell your server what you want to do without all that messy WSDL stuff. In this article, you'll see how to create a RESTful web service, using Perl.

<<http://www.onlamp.com/pub/a/onlamp/2008/02/19/developing-restful-web-services-in-perl.html>>

***Music Technology at NAMM 2008

Part 1: America's biggest musical instrument show debuted more high-tech wonders than ever this year. O'Reilly Digital Media prowled NAMM's five massive, noisy halls to bring back these high-tech hits.

<<http://www.oreillynet.com/pub/a/oreilly/digitalmedia/2008/01/24/2008-namm-report.html>>

Part 2: We're back from NAMM 2008 with even more intriguing new gadgets and gear. Once again, the throbbing halls of America's biggest musical instrument trade show introduced a torrent of high-tech goodness. From a \$99 Steinway to a truly killer guitar, from audible notation to singing keys, here's what you'll be playing this year.

<<http://www.oreillynet.com/pub/a/oreilly/digitalmedia/2008/01/31/2008-namm-report-part-2.html>>

Issue 02-08

***Katrin Eismann's Digital Darkroom Magic

Katrin Eismann, coauthor of *The Creative Digital Darkroom*, sat down with Derrick Story at PhotoPlus Expo in New York for a chat about how the darkroom has evolved from chemical-based to digital, and how that evolution has influenced her approach to image making. Katrin touches on many interesting topics, including her explanation on 3-step sharpening.

<<http://www.oreillynet.com/pub/a/oreilly/digitalmedia/2008/01/29/katrin-eismanns-digital-darkroom-magic.html>>
