Training Courses

[Intermediate Perl](#)

Presented by: Dave Cross

21st & 22nd February 2012

This course is aimed at people who have written a little Perl and who want to add another dimension to their Perl knowledge. This will take you from being "someone who uses Perl" to a "Perl programmer".

[Advanced Perl](#)

Presented by: Dave Cross

23rd & 24th February 2012

This course is aimed at people who have a lot of experience of Perl but who might not have had the time to keep up to date with the latest Perl techniques. This course teaches the latest techniques being used by the world's best Perl programmers. This is the knowledge that will enable you to describe yourself as a "Perl expert".

[Intensive Introduction to Google App Engine with Python](#)

Presented by: Paul Barry

12th April 2012, London

Prerequisites: Course attendees should have prior experience with Python, Web Development (HTML, CSS, JavaScript), and RDBMS technologies.

[Presentation Skills](#)

Presented by: Damian Conway

16th April, London

The best and most effective presentations capture the audience quickly, hold their interest effortlessly, educate and entertain them in equal measure, and sometimes even inspire them. This class explores simple and effective techniques for achieving those goals in any kind of presentation.

The first half of the class focuses on preparation, content selection, visual design, delivery, handling questions and effective techniques for presenting various kinds of technical information (code, data, statistics, charts, structure diagrams etc.)

The second half of the course is an in-depth tutorial on improving the 'look and feel' of presentation materials – especially Powerpoint/Keynote/Impress presentations. In particular, it demonstrates practical techniques for making your slides not suck!

Events

jQuery Conference	Oxford	10 February	☺
PHP London	London, UK	24-25 February	☺
QCon	London, UK	7-9 March	☺
33rd Degree	Krakow, Poland	19-21 March	☺
FLOSS - Spring 2012	Edinburgh, UK	20-22 March	☺
