The Data Frame  
October 17-19, 2011  
San Francisco, CA

## Velocity Europe

November 13-15, 2011  
Berlin, Germany

## Tutorials

### Building the network you need with OpenBSD's PF

*Presented by: Peter Hansteen*

22nd September 2011, London

This one day tutorial is aimed at experienced or aspiring network administrators who want to expand their knowledge of PF, the OpenBSD packet filter, and related tools. A basic knowledge of Unix and TCP/IP network configuration is expected and required. It provides updates on the new PF syntax and features introduced in OpenBSD 4.7 (with samples presented in the old and new syntax where appropriate), with newer updates and reviews of relevant new features in the upcoming OpenBSD 5.0 release.

### DNSSEC Training Course/Tutorial

*Presented by: Jan-Piet Mens*

16th November 2011, London

**Description:** This one day tutorial is aimed at experienced or aspiring DNS administrators who want to learn about DNS Security Extensions (DNSSEC). A basic knowledge of Unix and DNS is expected and required.
